PROFESSIONAL EXPERIENCE

WordPress Developer • **Boston University** July 2022 – May 2024

- Architected and implemented a university-wide custom WordPress Gutenberg framework serving multiple departments.
- Coordinated directly with project managers to provide detailed technical scopes, architecture plans, and sprint estimates.
- Developed and maintained custom PHP and JavaScript block plugins deployed across university digital properties.
- Liaised with external departments to align technological solutions with overarching university initiatives and roadmaps.
- Enforced code quality standards and security compliance through structured code reviews and pull request audits.

Director of Marketing & Development • **This Day Design** January 2017 – January 2023

- Led end-to-end digital marketing and web development campaigns ranging from platform launches to targeted email automation.
- Designed and launched targeted promotional campaigns that achieved a **133% increase in email subscribers**.
- Spearheaded search engine optimization (SEO) strategies, positioning client platforms at top global search engine rankings.
- Managed technical B2B & B2C sales funnels and directed client outreach teams to expand business opportunities.

WordPress Developer • **SearchPro Systems** June 2021 – December 2021

- Interviewed, onboarded, mentored, and performed ongoing technical performance reviews for junior developers.
- Accelerated team production pipelines by introducing modern web development frameworks and automated tools.
- Maintained, updated, and optimized performance for a portfolio of over 250+ active client websites.

PROFESSIONAL EXPERIENCE (CONTINUED)

WordPress Developer • **XRHealth** October 2020 – March 2021

- Directly managed high-traffic digital storefronts targeted toward global key markets (USA, Israel, and Australia).
- Coordinated complete website rebranding initiatives alongside dedicated UI/UX designers and copywriting teams.
- Designed and developed optimized landing pages that systematically generated **50+ incoming qualified leads monthly**.
- Architected and deployed an Investor Portal, directly supporting company fundraising efforts that secured **$15 Million in funding**.
- Collaborated closely with core infrastructure and product engineering teams to ensure seamless application rebrand rollouts.
- Advised the Vice President of Marketing on industry web standards, accessibility compliance, and development strategies.
- Generated automated user behavior analytic reports that informed product feature iteration and UX refinements.

Web Developer • **Interactive Nerd** January 2020 – October 2020

- Collaborated with Senior Developers to design and launch an online platform dedicated to developer mentorship and training.
- Built interactive, responsive front-end components using HTML5, CSS3, JavaScript, and React.js.
- Facilitated daily agile team stand-ups, coaching aspiring developers on modern coding techniques and job readiness.

RELEVANT EXPERIENCE

IT Support Specialist • **Roxbury Community College** January 2020 – October 2020

- Configured and deployed enterprise workstations, laptops, and networking hardware in compliance with institutional policies.
- Managed Active Directory services including user accounts, access permissions, and domain group policies within Windows 10 environment.
- Monitored network server health and provided dedicated technical support for institutional mobile device deployments.
- Diagnosed and resolved hardware, software, workstation network, and email configuration issues for students and faculty.
